

Building blocks for digital transformation

Our understanding

The Cross-Business-Architecture Lab is an association of users for users. Best practices that have been tried and tested in the field are shared and further refined into leading-edge results that are reliable and ready for immediate use.

The roots of the Cross-Business-Architecture Lab lie in IT and enterprise architecture, not least because of its ten-year history as SOA Innovation Lab e. V.

CBA Lab members are convinced that a powerful (enterprise) architecture is a fundamental success factor for digital transformation.

Cross

Cross-industry partnerships and ecosystems are the essence of digitization, both internally and externally. The CBA Lab connects divisions and departments, companies and industries.

Business

Digital transformation blurs and dissolves the boundaries between IT and business. The CIO is no longer the only person responsible for IT and enterprise architectures in some companies; in fact, IT is often constructed by the CDO and an increasing number of business units on an equal footing.

Architecture

The DNA of the Cross-Business-Architecture Lab is based on architectures, modular IT building blocks, business, governance and organization, as well as in data, services and processes. The discipline that governs all of this is called Enterprise Architecture today. It is of fundamental significance with regard to digital transformation.

Lab

The Cross-Business-Architecture Lab doesn't just talk, but also acts accordingly. We work on topical issues in joint work streams, often in lab-like environments.

Our current topics

- > Accessible EA in a digital Age
- > Cloud: Architectures and Strategies
- > Digital Twin
- > AI / Machine Learning
- > Security

Our training programs

- > Cross-Business-Architecture – Overview
- > Cross-Business-Architecture – Business-View
- > Cross-Business-Architecture – Technical View
- > CBA – Transformation of Business Models
- > Enterprise Architecture Management – Basics

You can request detailed information on our training programs and work- shops by sending an e-mail to info@cba-lab.de.
